The pricing below is offered to assist funeral directors in providing an estimate to clients. A site inspection is required before a formal quotation can be provided and job requirements may change following breaking ground. We will communicate any changes to costing as soon as practicable. Please ensure you are up-front with families regarding surcharges and the possibility of unforeseen subterranean obstacles.

For the most up to date pricing guide please visit [our website](#). Avoid downloading this document as prices are subject to change.

Final pricing will depend on the specifics of each gravesite and the work required, including but not limited to; site accessibility, the condition of the monument, surrounding gravesites and unforeseen subterranean obstacles.

R&R Gravedigging are committed to safe work practices and responsible for meeting unique requirements in each cemetery.

For a quote, please contact us to schedule a site inspection.
